* Refer to Section 2.6 Device Sterilization in the Technical File for additional information on compliance with ISO EN 17665-1 and ISO 17664.

Regrading compliance with ISO 15883: Refer to Section 2.6 Device Sterilization in the Technical File for additional information on compliance with ISO 15883. Per SGS Life Sci. test lab it is the responsibility of the user(s) to demonstrate compliance of the installed Washer/Disinfector throughout the devices working life

***BS EN ISO 11137-2:2015 is equivalent to the US standard ANSI/AAMI/ISO 11137-2:2013 (as noted on dose Audit reports)

During the annual review of the Technical File we will check for most recent list of European Norms harmonized in the Official Journal of European Communities. Searches can be conducted on European and /or other websites to determine if any new standards are applicable and to ensure that the most current revision of the standard is referenced. Updates may also occur throughout the year and will be documented per QSP 4.2-3 Document Change Control.
